Lester A. Snow
Executive Director, CALFED BAY-DELTA
1410 Ninth St. - Suite #1150
Sacramento, Ca. 95814

I am writing to express my disapproval of the CALFED BAY-DELTA (PERIPHERAL CANAL RESURRECTED?) program as now proposed.

We need to protect all our farmlands and not retire what is some of the richest soil in the world.

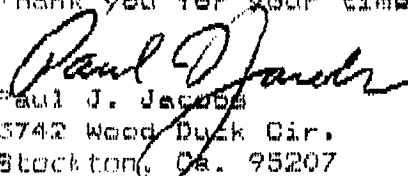

We need to bring new life to the San Joaquin River by increased flows from the Friant Dam.

We definitely do not want to send more water to the irrigated south.

You are hereby urged to give this serious thought and study and to solicit input from clear thinking people.

We need to find ways to protect the MOUNTAIN AS WELL as all of central California ("THE BREADBASKET OF THE WORLD") and all the inhabitants; animal, vegetable and mineral.

Thank you for your time;

Paul J. Jacobs
